If you believe that the court system exists to protect the rights of everyone, join us in supporting the Equal Justice Ahead Campaign

Campaign Goal: \$1.4 million

INCREASED CAPACITY

The building, which was built in 1973, will be redesigned on the interior to create additional private offices, a small conference room, a children's waiting room, and a large community room. The newly designed space will allow Washoe Legal Services to house more attorneys and assist more clients.

COMMUNITY FOCUSED

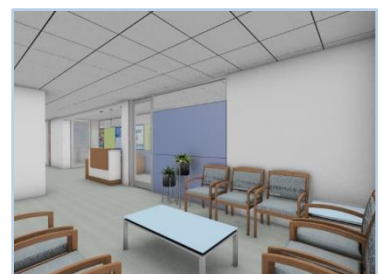

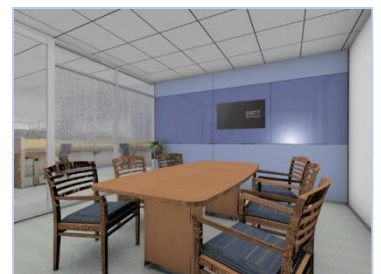

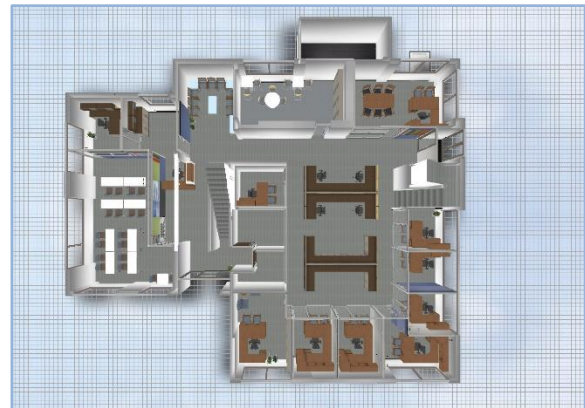

Washoe Legal Services is a community leader and is focused on supporting our community. The plans include the creation of a large community room that will be used for workshops, classes, legal education clinics, and other community events.

ENHANCING PRIVACY

The newly configured offices will provide increased privacy so that clients can feel more comfortable sharing personal information. New security measures will restrict access to attorney offices.

ENVIRONMENTALLY FRIENDLY

The infrastructure upgrades will include improvements to the lighting and HVAC systems to create a more energy efficient building, decrease utility costs and conserve natural resources.

Imagine what your dollars can do! By making a gift to the campaign, you will be providing the resources needed for Washoe Legal Services to create a modern, efficient, and client-friendly legal center.
